EDUCATION

Kocaeli University
In 2017, I started my undergraduate education in Computer Engineering at the Faculty of Engineering. I am a 4th grade of student.

WORK EXPERİENCE

L.C. Waikiki (SEPTEMBER 2017 – MAY 2018)
Storage Staff

Guardian Aquatics (JUNE 2018 – SEPTEMBER 2018)
I was an exchange student. I stayed for four monts in USA and i have been worked as an lifeguard in Virginia. I had the opportunity to see the American Culture and improve my language.

Hepsiburada (SEPTEMBER 2020 – October 2020)
Storage Staff

Front-End Developer (2018 - Frellancer)
I am workiing as a freelancer for 4 years. I convert design files to html. I master the HTML5 and CSS3 languages and also Bootstrap library. I am building responsive websites with these technologies . I am creating UI/UX layouts. I am using SASS and LESS, CSS preprocessors, and building them with GruntJS taskrunner. I prefer jquery and also developing with pure Javascript.

Back-End Developer(2019 - Freelancer)
I created a e-commerce website for thinkermath.com.tr lately. I brought together the shopping side and studying side of the old website. I renewed the design. I coded PHP. I took benefits from Laravel and build my own framework. I used iyzico API for getting paid.I also used some libraries with composer like PHPMailer and Verot Upload.I did the Stylesheet import and export.

Aksoy Çözüm – IT & Services (Ocak 2021 – Haziran 2021)
I was the intern in Aksoy Cozum at the beginning. I have worked on Electronic Document Management System that named EBA for 30 days. And i continue my career in here now.

LANGUAGE

English (Upper-Indermediate)
Turkish (Native)

ABILITIES

I have experince in web design and web development. I can handle all about front-end development. I master the HTML5 and CSS3 languages and also Bootstrap library. I can create responsive sites with CSS media query,CSS Flexbox and CSS Grid. I am using SASS and LESS, CSS preprocessors, and running them with GruntJS taskrunner. I can develop with Javascript, Jquery, also, beginner at REACT and VUE.

I use Git and GitHub. I have the OOP logic. I can handle the back-end requirement with PHP MySQLi and PHP PDO. I can create admin panel, control panel for any websites including E-Commerce. I can integrate payment system with various APIs.

I'm excited to work together.

Best Regards
